Purpose

Tanner Medical Center, Inc. Board of Director’s is committed to providing quality healthcare to patients. As a community healthcare provider, Tanner Health System offers financial assistance programs to help patients meet their medically necessary healthcare financial responsibilities. Tanner wants to help patients who do not have health insurance or who need help paying their hospital bills. As a nonprofit healthcare organization, Tanner cares about the patients and the communities we serve through better health and better healthcare. Our staff can help you:

- Apply for Medicaid assistance
- Determine if you qualify for financial assistance from Tanner

Tanner Financial Assistance

First and foremost, your financial circumstances will not affect your care. All patients are treated with respect and fairness. Patients who meet certain income guidelines may qualify for Tanner Financial Assistance, including reduced hospital charges and interest-free payment plans. Patients who are eligible for financial assistance will be billed less than the amounts generally billed to individuals who have insurance covering such care. For the calendar year of 2017, these patients will receive a 60% discount off of the hospital list price.

If you are insured and have questions about your coverage or your level of benefits, please contact your insurance provider. Patients without insurance will automatically receive a discount on the billed charges and will be considered for assistance.

Financial assistance approval will be in effect for 12 months from the date of approval. Patients who have services within this time period should inform us of the visit by calling 770-812-5795 so that financial assistance may be applied.

Applying for Financial Assistance

You may apply for Financial Assistance at any time – before, during or after your care, up to 24 months after your initial bill. We send information with your bill about how to apply for assistance. Applications are also available upon request or at www.tanner.org. The application requires proof of income such as an income tax return. The documents which

may be used as proof of income can be found on the application form.

Presumptive Financial Assistance

Presumptive financial assistance may be approved for homelessness and deceased patients with no estate. Patients meeting the federal poverty guidelines documented with MedAssist screening may also qualify for presumptive financial assistance. This will not require an application for approval.

Medical Qualifications for Financial Assistance

Tanner will provide, without exception, care for emergency medical conditions to all patients seeking such care, regardless of ability to pay or to qualify for financial assistance, in accordance with the requirements of the Emergency Medical Treatment and Active Labor Act (EMTALA).

Financial assistance is available only for emergency and medically necessary services. It does not apply to elective procedures such as cosmetic surgery and services not covered by Medicare. It also does not apply to the portion of your services that have been paid for by a third party such as an insurance company or government program.

The granting of financial assistance shall be based on an individualized determination of financial need, and shall not take into account patient's age, gender, race, veteran status, immigration status, sexual orientation, or religious affiliation.

A listing of providers who are not included under Tanner's Financial Assistance Policy is available by calling 770-812-5795.

Income Guidelines for Financial Assistance

The amount of financial assistance you receive is based on Federal Poverty Level information set by the United States Government each year. To be eligible for a discount, your family income must not be more than three and one-half times the Federal Poverty Level (350 percent). We can give you a Financial Assistance Policy Income and Discount Chart that show these income levels upon request. In addition to your income, the discount will also take into account the size of your family.

Income Guidelines for Catastrophic Events

In the case of a catastrophic medical event, patients who may not ordinarily qualify for Financial Assistance will be granted assistance. The financial responsibility of an insured patient qualifying for financial assistance will be limited to 10 percent of annual family income for any 12-month period. The financial responsibility of an uninsured patient will be limited to 25 percent of annual family income for any 12-month period.

Amounts Generally Billed

If you receive assistance under the Tanner Financial Assistance Policy (FAP), Tanner may not charge you more than the amounts generally billed (AGB) to individuals who have insurance covering the same services. A patient eligible for financial assistance is considered to be "charged" only the amount he or she is personally responsible for paying, after all discounts (including discounts available under the FAP) and insurance payments have been applied.

Tanner determines AGB by calculating the Medicare and the commercial insurance charges billed for emergency and medically necessary care and determining the average reimbursement. This discount is calculated annually based on the look back method reviewing all charges and collections for all claims paid in full for emergency and other medically necessary care to determine the "amounts generally billed".

Once eligibility for financial assistance is approved, Tanner will apply the applicable financial assistance discount described in the Financial Assistance Income and Discount table. Any balance due by you will be reviewed to ensure it is less than the AGB

percentage. If the balance due is more than the AGB allowable amount, an additional discount will be applied to the balance to reduce it to the AGB percentage.

The AGB percentage for Tanner is 40%.
